University of Georgia
Hugh Hodgson School of Music

EDUCATION

University of Georgia

Master of Music Composition Expected May 2027

Bowling Green State University

Bachelor of Music Composition 2025, GPA 4.0 Presidential Award

Composition

Dr. Emily Koh 2025–

Drs. Elanie Lillios, Piyawat Louilarpprasert, Mikel Kuehn, Christopher Dietz
2021–2025

AWARDS

Klingler Electroacoustic Residency 2025

Past/Present

Reading and recording by Hub New Music and Mike Laurello.

Toledo Symphony Orchestra Reading 2022

Alone at 7:03 and the Stillness of the Lake

Reading by the Toledo Symphony Orchestra, and a masterclass with Zosha Di Castri.

American Composers Orchestra EarShot Recording Finalist 2022

Hatcher Pass

Michigan Youth Arts Festival Composer

Variations on a Portuguese Folk Dance

Selected for a performance at the Michigan Youth Arts Festival to represent all young composers in Michigan

TEACHING EXPERIENCE

Dancz Center for New Music Graduate Assistant 2025–

Assist Electroacoustic Composition courses, maintain studio and blackbox theater spaces, manage equipment and scheduling. Run technology and recording for recitals in the Dancz theater.

Music Theory and Aural Skills Tutor 2024–2025

Blue Lake Fine Arts Camp International Counselor 2023, 2024, 2025

Principal cellist in the International Youth Orchestra. Working directly with high school musicians to learn repertoire, train in cultural and global leadership, and supervise a three-week European tour. Other responsibilities include managing instruments, equipment, gifts, and music. Skills required include organizational skills, leadership, and working with a team in high-stress environments.

MUSIC TECHNOLOGY

Expert: SuperCollider, Max/MSP, Ableton, REAPER, MainStage

Advanced: ChuckK, Hydra, Arduino

A Method of Automating and Controlling Hydra with SuperCollider

A paper exploring the MIDI capabilities of the browser-based visual coding platform Hydra, and the real-time audio synthesis and processing coding software SuperCollider to manipulate visuals in realtime.

Silenced

Piece for cello, fixed media, projection, and Arduino-controlled LED array.

Infinite Monkeys

Piece for laptop ensemble using SuperCollider designed to be accessible to non-musicians. Written for Dr. Louilarpprasert's seminar *Rethinking Technologies in Music*, performed at his *Acoustics Extended vol II* concert on October 24, 2024.

Dedicated to a Happier Year

Piece for bass saxophone and live electronics using Max/MSP

Visions of Reality

Piece for laptop ensemble where performers live code following basic constraints given by the graphic score and a ChuckK template.

Inside Out

Piece for solo cello and live electronics written in SuperCollider. A four channel work with zero pre-recorded sounds.

Final Lap

Interactive installation using Wiimotes, SuperCollider, and MarioKart Wii. Participants perform a race of MarioKart Wii, and the motion controls and button inputs trigger and control sounds in SuperCollider. Full installations were presented as part of the Student Organization in Music Research's *Video Game Forum* concert, and at ArtsX.

I Shot the Albatross

Piece for solo accordion and live electronics using Max/MSP.

MUCT 4440, 4450, 4460, 4470

Music Technology courses offered by BGSU

Creating and understand digital sound synthesis to be used in a fixed media piece

Creating and processing sampled sounds to be used in a fixed media piece

Using MAX/MSP to create pieces with live electronics

Ableton Live Front Ensemble Programming

Programming of a Pearl MalletStation for use in a competitive high school marching band front ensemble.

MainStage Keyboard Programming

Original programming of keyboard parts for *The Hunchback of Notre Dame*, *Footloose*, and *Matilda*, using industry-standard MainStage.
